Issue 109 • Winter 2009

## Aventurine Goes Black-Tie!

Add an air of sophistication to fusing designs with new System 96® Aventurine Black. Delicate metallic flecks shimmer like a field of tiny diamonds on a rich, black background. Aventurine Black ... understated-elegance for the System 96 fuser.

Aventurine **BLACK**  Stock Number: 1009AVSF

## NEW! System 96 Aventurine Ever-Green Christmas Trees

Festive Aventurine Ever-Green Tree CutUps™ are sure to add pizzazz to the season's holiday fusing projects. Whether decorated or left "au natural," added as an accessory to a larger piece or simply fused with a hook for an instant ornament — these Aventurine Ever-Greens are sure to put a sparkle in your eye.

## I Dream of OpalArt™

Leslie Gibbs, of Gibbs Art Glass, Hollywood, FL illustrates how to take full advantage of the swirling patterns inherent in Spectrum's System 96 OpalArt to compliment a design. By utilizing the artistic swirls to enhance the effect of smoke rising from her Magic Lantern, Leslie adds depth and interest to the piece. She also incorporated curved wires to finish off the smoke trails, as well as a few fused elements in the lantern for additional dimension.

## Glass Craft & Bead Expo April 7<sup>th</sup> - 11<sup>th</sup> — In Las Vegas!

(With those numbers, everyone wins!)

Glass Craft & Bead Expo is pulling out the stops in their effort to make 2010 a truly world class consumer event. Over 220 workshops will be offered in an incredible variety of glass arts, all taught by the leading professionals in our industry. Over 130 vendors will be displaying and demonstrating all the newest and most exciting products and tools. Of course, you can always count on your favorites such as the annual auction, Gallery of Excellence, and even the wildly popular bowling night will be back!

For more class info or to register, please visit [www.glasscraftexpo.com](http://www.glasscraftexpo.com).
